Professional Summary

Software Developer with experience in Full Stack Web Development (MERN), Python, Java, REST APIs, and MongoDB through academic projects and internships. Developed web-based and AI/ML-powered applications, including resume analysis, career recommendation, and machine learning projects. Familiar with Data Structures Algorithms, OOP, DBMS, Operating Systems, and Computer Networks, with a strong interest in software development and problem solving.

Education

Ramachandra College of Engineering, Eluru (JNTUK)

2022 – 2026

B.Tech in Artificial Intelligence and Data Science

CGPA: 7.5/10

Internships

Software Development Intern

Jan – Apr 2025

StudyOwl Education Pvt Ltd

- Developed REST APIs, authentication modules, and backend services using Node.js, Express.js, and MongoDB.

Software Engineering Intern

May – Jun 2025

SmartBridge (Remote)

- Built Python-Flask applications, automation workflows, REST APIs, and data processing solutions.

Machine Learning Intern

May – Jun 2024

Blackbucks (Remote)

- Performed data preprocessing, feature engineering, and machine learning model evaluation using Python.

Projects

ResumeAI – AI-Powered Career Intelligence Platform ([GitHub](#))

2025 – Present

MERN Stack · Python · AI Integration

- Built an AI-powered platform for ATS resume analysis, resume generation, career recommendations, and interview preparation using MERN Stack and Python.
- Implemented REST APIs, JWT authentication, MongoDB integration, and resume scoring workflows.

Pathora – AI Career Path Recommendation System ([Live](#))

2025 – Present

MERN Stack · Python · AI Integration

- Developed an AI-driven career guidance platform with personalized career recommendations, skill-gap analysis, and learning roadmaps.
- Built authentication, recommendation workflows, REST APIs, and MongoDB-based data management.

Smart Leave Management System

2026

Power Apps · Automation

- Developed a leave management system with request tracking, approval workflows, authentication, and process automation using Microsoft Power Apps.

Technical Skills

Programming Languages: Python, Java, JavaScript, SQL, HTML5, CSS3

Web & Backend Development: React.js, Node.js, Express.js, Flask, REST APIs, Authentication, JSON Processing

AI/ML & Data Science: NumPy, Pandas, Scikit-learn, Machine Learning, Data Analysis, Data Preprocessing, Model Evaluation

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Jupyter Notebook, Vercel, Render

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Software Engineering: Backend Development, API Development, Database Integration, Debugging, Deployment, SDLC, Technical Documentation

Achievements

- Built and deployed multiple full-stack and AI-powered applications using MERN Stack, Python, REST APIs, and MongoDB.
- Completed internships in Software Development, Software Engineering, and Machine Learning with hands-on experience in backend development, automation, and AI/ML workflows.

Certifications

- Certified in C, Java, Python, Machine Learning, Artificial Intelligence Fundamentals, MongoDB, React.js, Full Stack Web Development, and AWS Cloud Fundamentals.
